Slide deck
Stefan Bender
Deutsche Bundesbank
Former Chair of INEXDA

The views expressed here do not necessarily reflect the opinion of the Deutsche Bundesbank, the INEXDA network, or the Eurosystem.
Motivation

- **Aggregate datasets** are important for **monitoring macroeconomic developments** and **macroeconomic policy**

- **Granular data** is necessary to understand **global developments** and in particular **differences across countries**

- Combining datasets and looking beyond aggregate statistics into heterogeneous developments require the **transformation** of “**data**” into “**knowledge**”

- **Local constraints** make it difficult, or often impossible, to link micro datasets from different jurisdictions, even for research and financial stability analysis

- **Better accessibility** and **sharing of granular data** would open up **new possibilities** for analysis by providing new **insights into the effect of policies**

What can **we do** from the **statistical side** to support this process?
INEXDA: The Granular Data Network

On 6th January 2017,

have launched the International Network of Exchanging Experiences on Statistical Handling of Granular Data (INEXDA), an international cooperative project to declare their willingness to further strengthen their cooperation.

Since its foundation, the following institutions have joined INEXDA as members:
How to become an INEXDA member

Other central banks, national statistical institutes and international organizations are encouraged to join INEXDA.

The following procedure has been established to admit new members:

<table>
<thead>
<tr>
<th>Step</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>A representative of the applying institution has to attend at least one INEXDA meeting in person before the formal application process is initiated.</td>
</tr>
<tr>
<td>2</td>
<td>Send an application letter signed by the head of the statistical department of the respective institution (or, in case of national statistical institutes, by the head of the responsible statistical department) to the chair of INEXDA.</td>
</tr>
<tr>
<td>3</td>
<td>All INEXDA members must agree to any application by a new institution.</td>
</tr>
<tr>
<td>4</td>
<td>Sign the MoU*. Congratulations, you are now a member of INEXDA.</td>
</tr>
</tbody>
</table>

* The INEXDA Memorandum of Understanding (MoU) can be accessed [here](#).
INEXDA’s general mission

- General mission is to **promote data sharing and data access**
- Promoting the **G20 Data Gaps Initiative II**, in particular recommendation 20, addressing the accessibility of granular data. INEXDA is mentioned in a G20 paper
- Acknowledging and supporting the work on data sharing of the **Irving Fisher Committee** on Central Bank Statistics
- INEXDA is governed by an **MoU**, that every member has to sign
- Sharing of granular data between INEXDA members not part of this MoU
Working Arrangements

The members of INEXDA have implemented the following working arrangements:

1. **Key decisions** are made on a **consensual** basis.

2. The work within INEXDA will be performed at the **operational level of the member institutions**.

3. INEXDA members will convene **twice per year**. **Guests** may be admitted to meetings. A **pre-meeting** will be organized prior to each INEXDA meeting with the purpose to welcoming guests to discuss the progress INEXDA has made so far.

4. The **chair of INEXDA** is elected for a two year term on a consensual basis. The current chair is Renaud Lacroix, Banque de France.

5. The **eBIS** facility operated by the Bank for International Settlements (BIS) provides the centralized location to **exchange documents** and foster collaborative activities.

* INEXDA members can access eBIS [here](#).
Background

Chronology of past INEXDA meetings

Jan 2017
1st INEXDA meeting in Lisbon
  • INEXDA members (DE, FR, IT, PT, UK)
  • Guests: BIS

Jul 2017
2nd INEXDA meeting in London
  • INEXDA members
  • Guests: BIS, ECB, ES

Jan 2018
3rd INEXDA meeting in Paris
  • INEXDA members (+ECB, ES)
  • Guests: AT, BIS, CL, MX, TR, UK (NSI)

Aug 2018
4th INEXDA meeting in Basel
  • INEXDA members (+CL, TR)
  • Guests: AT, CH, BIS, DE (NSI), Eurostat, MX, RU, UK (NSI)

Apr 2019
5th INEXDA meeting in Frankfurt
  • INEXDA members (+Eurostat, Russia)
  • Guests: AT, BIS, DE (NSI), FR (NSI), GR, NO (NSI), UK (NSI)

Working groups
1. Dissemination
2. Metadata
3. ADRF
4. Modes of accreditation
5. Contracts for research projects/bodies
6. Modes of data provision
7. Output control
8. Risk management for published results

safe output
safe projects
safe people

Workshop on Data Access
Planned INEXDA meetings

6th INEXDA meeting in Kuala Lumpur
- INEXDA members
- Guests: BIS

Aug 2019

ISI WSC 2019
Session at ISI and more INEXDA activities planned

Topics for the next meeting(s)
- To be completed
- ...
# Work program for the first two years

## 1. Comprehensive inventory of data in all member institutions
- Agreement on unified metadata schema
- Setup of a platform to collect and exchange metadata
- Start harmonizing metadata across INEXDA member countries

## 2. Comprehensive inventory of existing data access procedures
- ECB pilot collection of information on access for researchers
- ADRF for INEXDA proposed by Julia Lane (NYU)
- Setup of working groups

## 3. Dissemination of INEXDA results
- Prototype of INEXDA webpage by Banque de France.
INEXDA’s metadata schema

- Based on the GESIS DOI registration service da|ra (GESIS is cooperating with DataCite):
  
  https://www.da-ra.de/en/home

- Name of metadata items closely follows da|ra conventions to enable seamless DOI registration, if desired later in the project.

- Is basis for INEXDA metadata database that was established to store and view metadata from INEXDA members.

INEXDA’s metadata database

The database serves as ...
1. an information tool for INEXDA members, researchers and analysts
2. the basis for the harmonization activities of INEXDA (e.g. item relation)

Current contributions to the database come from
- Deutsche Bundesbank 30 (12)
- European Central Bank (6)
- Banca d’Italia 26 (6)
- Banco de España 21 (2)
- Banco de Portugal 16 (2)
The five modules of the ADRF (1|2)

1. **ADRF Documentation Module**
   - Provides metadata incl. data catalogue, ownership & access
   - Shows missing / distribution values
   - Links users, authors, research products, codes and tools and data producers
   - Allows researchers to **annotate datasets** and **provide codes** to read in and reuse data

2. **ADRF Collaboration Module**
   - **Collaboration** and **resource sharing** via shared project workspaces and **social tools** (e.g. interactive chat, questions and answers, code sharing)
   - Supports analysis workflows with self-documenting, sharable code files

3. **ADRF Security Module**
   - Security is implemented in **three layers**: Cloud infrastructure, operational security and application layer security (FedRAMP certified)
   - Data security and confidentiality is enforced at the level of all **5 Safes**: 
     - **People**
     - **Projects**
     - **Data**
     - **Environment**
     - **Results**
The five modules of the ADRF (2|2)

4 ADRF Stewardship Module

Management of:
1. dataset policies
2. data access request and approval workflows
3. user metadata approval workflow
4. reporting on data usage, projects, user driven metadata

5 ADRF Training Module

1. creates new product prototypes central to agency missions
2. develops skilled practitioners for new types of data and analysis methods
3. makes a growing set of linked data available as an ongoing asset

Four key components: Foundations, Data Curation, Data Analysis, Presentation, Inference and Ethics
ADRF’s holistic user centric approach

- **Training Module**: Data producer
- **Data producer**: Metadata
- **Metadata**: Data
- **Data**:
  - **Usage Feedback**: Data steward
  - **Access Workflows Monitoring**: Reporting

- **Data in cloud**: Alternative: local servers
- **Data**:
  - **Data analysis**
  - **Code**
  - **Collaboration**

- **Data user**

- **Documentation Module**: Explorer links metadata, codes, tools, publications

- **Stewardship Module**: Approval workflow, monitoring, reporting

- **Collaboration Module**: Interactive chat and code sharing

- **Workspace and tools**:
  - python
  - jupyter
  - R

- **Security Module**: FedRAMP security certified
Working Group on Data Access

1. **INEXDA workshop on data access procedures**
   - Serve as a kick-off event for the INEXDA work stream on data access
   - Utilise current momentum to improve data access procedures for data producers and researchers.

2. **Define common access procedures**
   - Identify similar workflows used by data providers.
   - From there define a standard
   - Need to be in compliance with internal data policies and external government regulations.

3. **Development of open software solution**
   - Set of common access procedures will define software requirements
   - Needs to be flexible enough to accommodate different legal frameworks
INEXDA’s webpage

Banque de France has implemented INEXDA’s internet platform which is accessible via https://www.inexda.org/
### Conclusion

- **INEXDA** provides a platform for exchanging experiences on statistical handling of granular data for central banks, national statistical institutes and international organizations.

- Supports the G20 process, especially the Data Gaps Initiative 2 recommendation aiming to promote the exchange of (granular) data as well as metadata.

- So far, focus has been on taking stock which granular data is available in member institutions using a unified metadata schema.

- Focus is gradually shifting towards harmonizing metadata and exchanging experiences about data access procedures.
Hand-over to Banque de France
Tasks of the INEXDA chair

- Plan next INEXDA meeting
- Decide who will present INEXDA during the ISI WSC 2019
- Decide on location and tasks of the INEXDA secretariat
- Decide on who will manage the application process for institutions that have already expressed their interest in becoming a member, e.g. OeNB, Banco de Mexico
- Represent INEXDA in international conferences, e.g. CEMLA
- Advertise INEXDA to acquire new members
- Decide on document management in eBIS
**Interested central banks**

*Several central banks and other institutions are interested or already in the process of becoming a member:*

<table>
<thead>
<tr>
<th>Cn.</th>
<th>Name</th>
<th>Current status</th>
</tr>
</thead>
<tbody>
<tr>
<td>GR</td>
<td>Bank of Greece</td>
<td>Participation in workshop and wants to be kept in the loop but at this point not ready in becoming a member.</td>
</tr>
<tr>
<td></td>
<td>Bank for International Settlements</td>
<td>Permanent guest.</td>
</tr>
<tr>
<td>AT</td>
<td>Österreichische Nationalbank</td>
<td>Participation in meetings and interested in initiating the membership process once new director general of statistics assumes office.</td>
</tr>
<tr>
<td>IN</td>
<td>Reserve Bank of India</td>
<td>Generally interested and wants to be kept in the loop.</td>
</tr>
<tr>
<td>MX</td>
<td>Banco de México</td>
<td>Participation in meetings, BBk is visiting for presentation of application process. Seems to be interested in becoming a member.</td>
</tr>
</tbody>
</table>
## Hand-over to Banque de France – Potential new members

</table>
Working group 1 - Metadata

Where we are
- Metadata schema is completed and metadata base is running
- First workshop in March 2018

Decide on distribution of future tasks
- Invite new members to add metadata on their datasets
- Broaden number of available datasets from existing members
- Explore linkages and relations between datasets
- Decide when to go live

Important documents
- Link to da|ra metadata tool: https://inexda.da-ra.de/dara/mydara/index?lang=en
- Write-up for metadata schema [Name from eBIS]
- Paper on metadata [Name from eBIS]
Working group 2 – Data access

Where we are
- Workshop with guests to conduct first stock-taking (April 2019)
- Formally started INEXDA working group on data access (chaired by BBk)

Decide on distribution of future tasks
- Develop best-practice data access procedures possibly involving guests
- Develop open source software based on best-practice procedures
- Workshop for members of the working group

Important documents
- Presentations from workshop [Name from eBIS]
Working group 3 – Remote access

Where we are
- Formally started INEXDA working group on data access (chaired by BdF and BdP)

Decide on distribution of future tasks
- To be decided by in working group and especially by BdF and BdP

Important documents
- Not yet available
